STANDARD FOR ALL SHIPS. Those of Same Type in Navy to Have Similar Organizations.

Orders have been sent to the several commanders-in-chief aboard to convene boards of officers for the purpose of standardizing the organizations of the several types of ships so sister ships will have the same organization. In general features they are already similar, but differing in details. When the reports of the boards come in they will be examined in the department, and a final scheme worked out making the organizations as nearly uniform throughout all vessels of the same class as differences of construction and type will permit.

Some of the existing differences consist in different schemes of numbering, bill-etting, etc., all based on the same general system, varying only in their application, so that there is really no difference in principle. With the proposed standard organization adopted both the officers and men would more readily find their stations and duties, their previous experience on board other ships being directly applicable to the new ones.

"Open Shop" at Cumberland. Special Dispatch to The Star.

CUMBERLAND, Md., June 1.—Following their declaration for "open shop," members of the Master Builders' Association whose contracts had been tied up by the strike of the union carpenters were able to put a number of men to work. Some of the carpenters at work are from other states. George B. Wise, president of the Master Builders' Association, says it is not a fight against the union, but public policy and justice to themselves and those for whom they are building homes compelled them to go on with the work as it was impossible to meet the demands of the carpenters.

DENTISTS You All Know. Drs. Patton and Leonard. Who have been filling, crowning and teeth for the last twenty years in Washington without causing the least bit of pain. HEALTH OFFICERS MEET TO DISCUSS EPIDEMICS

Plans Formulated to Check Infectious Diseases in the United States.

Surgeon General Rupert Blue of the marine hospital service yesterday presided at a conference of state and territorial health officers held in accordance with federal statutes at the hospital bureau in this city. Twenty-four states were represented, and all the latest developments of epidemic diseases affecting the public health were discussed.

For some time past there has been a very serious epidemic of epital meningitis in several cities of Texas, and a committee was appointed, with representatives from Texas, New York and other places, to formulate methods for checking the spread of the disease.

Guarding Against Typhus Fever. Similar provisions were made for limiting the spread of typhus fever, which, it has recently been discovered, is present in many of the large cities of the United States. The type of typhus fever in America is not so deadly as it has proven abroad, and for several years it was known in the New York hospitals under the name of Brill's disease. Two surgeons of the marine hospital service, Dr. Goldberger and Dr. John F. Anderson, finally identified the disease in Mexico as genuine typhus, and found also that it is a disease bred only in very unclean surroundings and carried by vermin.

Clean-Up of Cities. The cities where typhus is prevalent will be subjected to a thorough clean-up campaign.

Among the questions discussed were the federal collection of mortality statistics, and the establishing of a uniform standard for disinfectants. The conference concluded its work and adjourned.

WEATHER. Showers Tonight; Monday Fair and Somewhat Cooler.

For the District of Columbia, Maryland and Virginia, fair Sunday, probably followed by showers at night. Monday fair and somewhat cooler; light to moderate variable winds.

Barometric pressure is quite evenly distributed over the country, and no disturbance of the weather is now within the field of observation.

Within the last twenty-four hours there have been local rains and thunderstorms in the Gulf states, the plains states and the Mississippi valley, while in all other parts of the country the weather remained fair.

The weather is considerably warmer over much of the country east of the Mississippi river and over the plains states and the Rocky mountain region, and warmer weather continues in the Pacific states, readings being 100 degrees or higher in the interior of California. Temperatures are lower in the Mississippi valley, the Gulf states and upper Michigan.

A slight disturbance that is now over the upper lake region will advance eastward, and be attended by showers Sunday in the region of the great lakes and the Ohio valley, and Sunday night in the middle Atlantic and New England states, and will be followed by fair weather in these regions Monday. Showers are also probable during the next forty-eight hours in the Gulf and south Atlantic states. In the upper Mississippi valley, the plains states, the Rocky mountain and plateau regions fair weather will prevail Sunday and Monday.

The temperature will be somewhat lower Sunday in the lake region and the Ohio valley, and Monday in the middle Atlantic and New England states. It will rise Sunday in the upper Mississippi and lower Missouri valleys and it will change little elsewhere.

The winds along the New England coast will be light to moderate variable, mostly southwest and west; on the middle and south Atlantic and Gulf coast, light to moderate variable; on the great lakes, light to moderate variable.

Yesterday's Temperatures. Temperature—Midnight, 50; 2 a.m., 57; 4 a.m., 55; 6 a.m., 55; 8 a.m., 65; 10 a.m., 77; 12 noon, 81; 2 p.m., 85; 4 p.m., 87; 6 p.m., 86; 8 p.m., 75; 10 p.m., 72; highest, 88; lowest, 54.

Relative humidity—8 a.m., 71; 2 p.m., 62; 8 p.m., 58.

Rainfall (8 p.m. to 8 p.m.), 0. Hours of sunshine, 14.8. Per cent of possible sunshine, 100.

Temperature same date last year—Highest, 79; lowest, 63.

GRAY HEADS RAILWAY. Succeeds L. W. Hill as President of Great Northern.

ST. PAUL, Minn., June 1.—Carl H. Gray today assumed his duties as president of the Great Northern railway in place of Louis W. Hill. It is said that immediate staff changes are not contemplated, but it is regarded as likely that during the next few months there will be some sort of reorganization.

L. W. Hill continues as director of the system, and it is understood that he soon will be elected chairman to succeed James J. Hill. Denial is made of reports that L. W. Hill Denial is made of reports the exploitation of development enterprises in Oregon or to the Hill ore properties.

In the capacity of chairman of the board of directors Mr. Hill, it is said, will continue to have an active interest in the railroad properties.

York, United Spanish War Veterans, will be unveiled next Sunday, June 9, at 3 o'clock.

Admiral Dewey will unveil the monument, while Father W. H. I. Reaney, U. S. N., will deliver a eulogy on Admiral Coghlan. It is expected also that President Taft will be present and that he will deliver an address. The Secretary of the Navy will be one of the speakers, and the Marine Band will furnish the music.

Bernhardt Wall, commander of the Department of New York, with his staff, will arrive in Washington, June 8, accompanied by the commander-in-chief of the United Spanish War Veterans, Maurice Simmons, and staff. A large attendance of members of the G. A. R. and U. S. W. V. posts and camps from other cities is looked for.

A Poured House at Virginia Highlands.
